FIELD SECRETARY OF THE Y. M. C. A.

H. C. Dowler, manager of the Nevada Gas company, has arranged to join the Y. M. C. A. forces in France as field secretary and will leave for his new position as soon as his successor in the local office arrives from Visalia.

Ever since Mr. Dowler was prevented by illness from gaining a commission in the reserve officers' training camp, he has been anxious to identify himself with the colors and believes as a representative of the Red Triangle that he will have the opportunity he desires.

NO MORE BOTTLES FOR BELGIAN BABIES

The local committee who has been looking after the milk bottles for the Belgian and French babies has called in the receivers and stopped the work of inviting donations for the reason that notice has been received from San Francisco announcing the merging of this movement with another of similar nature. Until further information is received the bottles will be kept in storage. Miss Dumont has counted the pennies and added the last contribution to the amount already vouchered for by the central organization.

FARMERETTES ACTIVE IN FIELD SERVICE

(By Associated Press)

LOS ANGELES, Aug. 2.—Four hundred and sixty-five "farmerettes" were sent out from the southern California branch of the women's land service here from May 1 to July 17, last, to aid California ranchers in their efforts to increase the country's food supply. Nearly all of these have remained in the service and as proof that these young women are capable of filling the places of men called into the army or other activities connected with the war, it was pointed out at the headquarters of the service that many of their requests for help came from ranches near those to which the units had previously been sent.

Volunteers in the women's land army sent out from Los Angeles include teachers, stenographers, saleswomen, waitresses and school girls. Most of them have been employed in gathering and preparing for market deciduous fruits. Activities of others have included driving tractors, dairying, planting tomatoes, harvesting various crops and making hay. In one of the first units formed was a young woman who previously had in her employ a French maid. The latest word received at service headquarters from her was that she had

just completed a thirteen-hour day picking up and sacking potatoes.

In the dairy industry near Los Angeles women have largely replaced men as milkers. Of the first units sent to the dairies only a few of the young women had milked before and most of them were unaware that there is a "wrong" as well as a "right" side to a cow until they have been kicked over by outraged animals. Two young women after picking themselves from the side of the stable opposite to that where they had begun operations promptly resigned. Some of the others at latest reports were milking as many as twenty-six cows twice daily. One recruit surprised her employer by milking twenty cows the first night. She had been employed in a cafeteria up to the time of joining the service.

The standard wage for dairy workers is \$45 a month with board and lodging; that for general agricultural workers is \$60 a month without board or lodging. Those engaged in picking and preparing fruit for market are paid on a piece work basis. The demand for dairy workers, it was said at the service headquarters, exceeds the supply. All requests for help for general farm work are met promptly.

FRENCH PREMIER PRAISES OUR BOYS

PARIS, Aug. 2.—Almost without notice, M. Clemenceau appeared upon the American front. He had come to felicitate the United States army unit which captured Belleau Wood upon the neatness and dispatch of the job that they had done. Accompanied by the commander of the French army, he arrived by motor, and, looking very fit and very elated, made without the smallest ceremony a graceful little speech to the American commander and his staff.

The most interesting portion of M. Clemenceau's remarks came when he declared that the Belleau Wood operation was "peculiarly American in conception, plan, and execution." Some details of the fighting are now becoming available, and elucidate that which may have been in the French premier's mind.

For one thing, the Americans used their rifles with the most deadly effect. There is a story of a private who paused calmly during the advance, and, though under heavy shell fire, picked off, with all the sangfroid in the world, the entire crew of a menacing machine gun.

It is not to be argued from this that the United States troops did not show themselves extremely handy with their bayonets—for they did—but, half instinctively perhaps, they made the rifle bullet count as it has rarely counted in this war. Other qualities which came out in the fighting were eagerness to be on the offensive and a constant desire to keep the warfare open. Also the American artillery proved itself most gratifyingly proficient.

SAN DIEGO BOOMS WITH IMPROVEMENT

Al Prevett returned last evening from spending a month at San Diego and is more than ever impressed with the advantages of that city. The shipbuilding movement inaugurated less than a month ago is in full swing with construction of the docks going forward at a rate that will soon provide for laying the keels of the new argosies which will have their origin at the gateway city of the Pacific. The marine base which will be headquarters of the U. S. marine service on the coast is getting along nicely and, when finished, will furnish accommodations for 600 men and officers with their families. The latter improvement is in the vicinity of Point Loma while the shipbuilding site is in the southern end between National City and San Diego.

WILL ENGAGE IN WAR WORK

Mrs. Grace R. Moore has written her friends that she will not return to Tonopah, but will remain on the coast where she will engage in war work. This will leave a vacancy in the position of librarian of the public library.

I repair you a watch to carry while I repair your own. I am the finest watchmaker who ever came to Tonopah. Emilie Merman at Robert's Grocery store. adv131f

CHARLES L. SLAVIN OUT FOR SHERIFF

Charles L. Slavin has announced himself as a candidate in the primaries for nomination to the office of sheriff on the Democratic ticket. Mr. Slavin is well known as the man who devised a system of county accounts which were deemed to be so simple and effective that they were adopted by the state tax commission and recommended to other counties. The same system has also been adopted in several California counties where they are pronounced superior to those in vogue in that state.

The candidate is familiar with the duties of the office, having served as under sheriff for two terms and having occupied the office of sheriff for two years. He is a man who has given his best energies and thoughts to developing the business of assessing and tax collecting so that it would be simplified and brought to a state of mathematical perfection and during his incumbency received much praise from committee appointed to examine the books of the county officers.

Mr. Slavin is an earnest student of political economy and may be relied upon to give an efficient administration in the event of election.

FIRM BELIEVER IN HARD MONEY

Oscar A. Daube, the well known mine organizer and promoter from New York, arrived here last evening in his own car direct from San Francisco. He was accompanied by Mr. and Mrs. Henry C. Cutting and W. Holst. This is the first visit of Mr. Cutting to Tonopah in the course of eight years and he was pleased to note the vast extension of the mining interests of the camp and predicted a long career of prosperity for Tonopah.

In the early days of Tonopah Mr. Cutting was in partnership with Judge Mark R. Averill when both gentlemen practiced law with offices on Main street.

Mr. Daube represents the Boston Butte capitalists who planned the daring undertaking of running a crosscut from the Great Western to the Tonopah Bonanza shaft, a distance of 5000 feet at a depth of 1500 feet. The work is now progressing from the Great Western shaft, where the crosscut is out 250 feet and making headway at the rate of 10 feet daily.

Mr. Daube has always been an enthusiastic believer in the future of silver and long before there was any sign of improvement in a lethargic market predicted that the price would go to coinage value. He still clings to the same opinion and insists that if it had not been for the government price fixing methods silver would be selling today for \$1.50 an ounce.

"The whole world wants hard money more than ever," Mr. Daube remarked, "and metal mining interests will have the preference of investors after the war. At present it is somewhat difficult to begin any new operations owing to the stringency of the money market and the desire of the public to help the war by patriotically subscribing the limit to Liberty bonds. I am going east in connection with the properties in the western end of the district and may have something further to say after my visit."

SOLDIERS FURNISH THEIR OWN SHOWS

(By Associated Press)

FORT BLISS, Tex., Aug. 2.—Much of the entertainment furnished civilians here comes from the army camps near here and at Deming, N. M. Recently a cavalry regiment stationed at Fort Bliss gave an entertainment in a downtown theater which would have been a credit to any traveling professional.

The opening number was by a graduate of the Boston conservatory of music, a violin solo was rendered by a soldier who had quit the eastern vaudeville circuit to enlist and trained musicians from the army bands gave instrumental and vocal solos.

In addition the soldiers presented a military playlet which dealt with the humorous side of army life. Whenever these shows are given the theater is packed for every performance.

MEN FOR SELECTIVE SERVICE CALLED

The following telegram from the provost marshal general has just been received and is hereby published for the information and guidance of all concerned:

"Complete the enrollment for Reno, Nevada, of 103 men who have at least a grammar school education or its equivalent or who have the ability to read and write and have had at least four years of school education and who have some aptitude for mechanical work and some experience along the lines of training hereinafter specified, to report to commanding officer, University of Nevada, on August 15th for instruction as carpenters, car repairmen, concrete workers, electricians and locomotive engineers.

Only white men and men physically qualified for general military service are to be inducted under this call.

Men selected for this service will receive a course of training at government expense fitting them to serve in army positions both at the front and behind the lines.

The voluntary period will continue until August 6th. After August 6th no more volunteers will be accepted. If, on August 7, a sufficient number of volunteers has not come forth to fill the allotment of the local board, the local board will proceed to select in sequence of order numbers a sufficient number of qualified men from within class one to fill its allotment, deducting the voluntary inductees.

Registrants of the class of June, 1918, may be accepted as volunteers under this call but no registrant of the class of June, 1918 can be inductively inducted until all available registrants of the class of June, 1917, in any local board have been exhausted.

Each man must carry with him at least two suits of underclothing, one suit of outer-clothing in good condition, a sweater, a stout pair of shoes, three extra pairs of socks and two bath towels, as he will be kept in civilian clothing during the first three weeks until he can be supplied with a uniform and other clothing.

MAY GO TO WASHINGTON

Last evening Mr. and Mrs. Ed. Malley entertained Mr. and Mrs. LaTourette at dinner at Minden Inn, and this evening Mr. LaTourette, who for nearly four years has been chief deputy in the state treasurer's office, leaves for Denver for a short visit with his mother, following which he will report to Washington. For the present Mr. LaTourette and the "twins" will remain in Carson, but young "Jack" will go to Denver with his father and stay for a few weeks with his grandmother—Carson Appeal.

PERSONAL

JAMES W. CONLISK, of the Giant Powder company, left this morning for the west.
MRS. WILLIAM MARSHALL and two children were passengers this morning for the coast.

JOE FUETSCH and John Barriar, county treasurer, returned from a two week's hunting trip to the Reese river country.

MRS. JENNIE A. CURIEUX, county auditor and recorder, arrived home last evening after spending a ten-day vacation with her little daughter, Catherine, at the home of Mrs. Walter Bell on Reese river.

MR. and MRS. JOHN W. SHERWIN returned home Wednesday night from Longbeach accompanied by their son, Jack. The trip was made by auto, Mr. Sherwin having gone south to bring his wife back.

C. A. HIGBEE secretary and treasurer of the Tonopah Mining company, and J. Harvey Whiteman, vice-president and general counselor of the same company, motored over to Goldfield this morning as the guests of Thomas Frazier.

LOUIS K. KOONTZ, Milton M. Deitch and Col. W. L. Moody have gone out hunting chickens of the sage variety and expect to spend a couple of weeks in Monitor valley. The party was supplied with a fine commissariat which took a couple of expert packers several hours to stow away.

L. L. NUNN, of Los Angeles, one of the best known electrical promoters, who has acquired several fortunes by shrewd investments in the construction of power lines through the Rocky Mountains, arrived at the Mizpah hotel last evening, accompanied by A. L. Woodhouse, of St. George, and W. L. Baruch, of Provo, Utah.

HIGHEST COURT TO REVIEW COPPER CANYON CASE

The Copp - Canyon placer mining case, which was tried in the federal court last year only to be reversed by the circuit court of appeals, has been carried to the United States supreme court, papers having been sent to Washington yesterday.
